Subject: OR CZARA FRN - Postpone Publication?

Thanks, Christine.

In light of yesterday's discussion, I agree there are some pretty big questions hanging out there, and I think after further discussion with various parties—and particularly with NWEA on Monday, the picture will get clearer. So we really don't even know how to articulate this action yet. If the effective date is postponed, wouldn't we hold off on the FRN until that point?

With regard to your—and Lynda's—specific comments, the subject of the action is not the interim progress OR has made outside of the Additional MMs for Forestry, so I do not support including anything about any specific MMs or progress in other areas. I think the better place to do that is in our letter to the state. You are correct that we need to be consistent with our terminology: determination document, decision document and finding document—they're all the same thing. We should settle for using one term consistently. I don't have a strong preference, but perhaps a weak preference for Determination Document, with is in line with the statute.

Bottom line: I think it makes sense to put off publication of the FRN until we receive greater clarity on the big picture questions and legal constructs. Hopefully very soon.
